EATWARE®

- Naturally biodegradable & compostable
- Microwave, freezer & oven safe
- Stronger than sugarcane bagasse & highly suited for food delivery
- Water & oil resistant and most importantly, PFAS free *

* PFAS chemicals are known as “forever chemicals,” a family of potentially thousands of synthetic chemicals that are extremely persistent in the environment and in our bodies. Commonly used in food packaging for their oil and water resistance properties, there is evidence that exposure to PFAS can lead to reproductive and developmental, liver and kidney, and immunological effects in laboratory animals.

EATware Bamboo Fibre Single-Comp Tray Oval 700ml

C31-0057-A-T

Size(cm):19.7 L x 11.6 W x 5.1 H Packing: 25pcs x 20pkt

#GoTreeFree

- Bamboo is a grass that grows 30 times faster than trees, thus using substantially less resources
- Compostable in a commercial composting facility
- Bamboo grass is renewable and does not require replanting after harvesting
- Bamboo fibers are naturally stronger than wood fibers
- Bamboo products are naturally 100% Biodegradable & Compostable
- Virgin Bamboo pulp processing uses less water, energy and chemicals than recycling tree paper

BAMBOO PAPER CUP

- Lined with 100% Compostable plant-based material on the inside and outside
- External plant-based lining protects the paper layer from condensation & collapsing
- Variety of lid and sleeve options
- Reduce storage and stock-keeping units, leading to reduced inventory costs
